

FLOOD PREPAREDNESS

Floods are one of the most common and widespread of all disasters, and continue to grow in frequency and severity. Businesses are more likely to flood than burn down, so it is vital to prepare now.

The following checklist will help keep your business afloat even if the worst happens. Most businesses can save between 20% and 90% on the cost of stock and movable equipment by taking action to prepare in advance of flooding. The following resources and tools will help mitigate your risk and protect not only your business, but also the most critical element of your business – your people.

✓	Before the Flood
<input type="checkbox"/>	Review Emergency Plan with team, and key employees
<input type="checkbox"/>	Take all necessary steps to prevent the release of dangerous chemicals that might be stored on your property - locate main gas and electrical shut-offs and anchor all fuel tanks
<input type="checkbox"/>	Postpone any receipt of goods- deliveries, couriers, etc.
<input type="checkbox"/>	Contact insurance agent, discuss policy, etc.
<input type="checkbox"/>	Establish emergency communication method (Alert Notification System, phone tree, etc.); identify meeting place and time for all key employees in Crisis Management Team; create voicemail for when evacuated, or out of office, etc.
<input type="checkbox"/>	Update disaster recovery kits and begin crisis back-up procedures
<input type="checkbox"/>	Maintain accurate inventory of product on site
<input type="checkbox"/>	Use plugs to prevent floodwater from backing up into sewer drains, or install flood vents/or flood proof barriers
<input type="checkbox"/>	Stay tuned to local media & community messaging
✓	During the Flood
<input type="checkbox"/>	Life safety is paramount

FLOOD PREPAREDNESS

<input type="checkbox"/>	Begin next phase of your business continuity plan
<input type="checkbox"/>	Send non-critical staff home
<input type="checkbox"/>	Raise elevators to the 2 nd floor and turn off
<input type="checkbox"/>	Stay tuned to local media- evacuate when required
<input type="checkbox"/>	Take cell phones, charger, critical hardware, and emergency kits with you
<input type="checkbox"/>	Unplug electrical items before leaving
<input type="checkbox"/>	Consider your business phones and redirection to cell phones, an answering service, or Google Voice
<input checked="" type="checkbox"/>	After the Flood
<input type="checkbox"/>	Listen for news reports to learn whether the community's water supply is safe to drink
<input type="checkbox"/>	Avoid floodwaters; water may be contaminated by oil, gasoline, or raw sewage - water may also be electrically charged from underground or downed power lines
<input type="checkbox"/>	Be aware of areas where floodwaters have receded, roads may have weakened and could collapse under the weight of a car
<input type="checkbox"/>	Clean and disinfect everything that got wet, mud left from floodwater can contain sewage and chemicals
<input type="checkbox"/>	Implement DR plan, and monitor local authorities' communication
<input type="checkbox"/>	Contact employees via determined method of communication and discuss next steps

FLOOD PREPAREDNESS

<input type="checkbox"/>	Contact your insurance agent
<input checked="" type="checkbox"/>	Your People
<input type="checkbox"/>	Ensure you have an emergency communication plan in place prior to the storm, evacuation, or threat
<input type="checkbox"/>	Have all employees, vendors, and client contact information on hand
<input type="checkbox"/>	During evacuation have a central point of contact for all employees, and ensure you know where your employees are located
<input type="checkbox"/>	Following the flood, notify all critical people of next steps, based on damage

Helping to Mitigate your Risk for Flood Interruption:

Do You Know the Terms?

FLOOD PREPAREDNESS

Driving Flood Facts

The following are important points to remember when driving in flood conditions:

- Six inches of water will reach the bottom of most passenger cars causing loss of control and possible stalling.
- A foot of water will float many vehicles.
- Two feet of rushing water can carry away most vehicles including sport utility vehicles (SUVs) and pick-ups.
